Characteristics of the courses of this group of Study Plan: Code=1.S.RRP-P OD 10/11 Name=1.s.RRP-od 10/11 prezen ní forma

04JA1	English Language 1	Z	2	The course aims at business and managerial language, as used in company management. The student's skills in foreign language speaking and writing are to be developed in the area of management (work and motivation, company structure, managing across cultures, recruitment). The students are also acquainted with the most up-to-date professional jargon dealing with project management and project planning. Further training in the proper use of grammar structures is provided simultaneously with vocabulary extension.
16E	Economics	Z,ZK	5	Introducing participants to the world economy, explaining the principles of economic thinking, illustrating the problem of resource scarcity and production effectiveness, aligning with profit maximization, distinguishing ideal and limited competition. Understanding the meaning and construction of the main macroeconomic indicators, distinguishing different economic systems, identifying the principles of government economic politics, understanding the fundamentals of fiscal and monetary policy of the government, applying macroeconomic theory to present problems of countries and integrated coalitions.
16OVL	Employee Organization and Management	Z	4	The aim of the subject is to connect the students' knowledge of management and project management with new information on employee organization and management. The outcome will be a graduate qualified for employee management in practice. Topics covered are personnel planning, selection methods, team construction and making good use of team member potential. Also time management and delegation, situational management, performance evaluation and training of leading an evaluation discussion. Last third of the subject covers succession planning, motivation, influencing company culture and crisis situation solving.
16RME	Regional and Local Economy	Z,ZK	5	Regional and municipal economy deals with social ? economic development of regions and towns. It is based on spatial application of common economic theory and regional economy. The main part of the subject is analysing the processes that lead to spatial organization of the society. Another important part is analysing the government sector of regions and towns and the possibilities of influencing by the authorities that have responsibility for development of regions and towns. The subject contains also key concepts and pieces of knowledge from the field of territorial finance, connection between territorial finance, state budget and extra-budgetary funds and then the basic structure of incomes and expenses of territorial budget with an emphasis on the budgets of municipalities and regions of Czech republic. Students will also learn the theoretical foundations of the subject, especially the localization theories.

16SRG	Socio-economic Geography	Z,ZK	5
The subject helps to understand the development, current situation and the main trends in economic distribution and other social ? economic activities of man on different regional levels. Students should get basics of geographical thinking, they should understand problems in territorial context and the rules of development.			
16SI	System Engineering	Z,ZK	5
System conception, Classification of systems. Open systems, closed systems, deterministic systems, stochastic systems, hard and soft systems. Optimization methods for systems, methods of graph theory, optimization of continuous systems, branch and bound methodology, Bellman's princip of optimazation. Optimization and simulation of stochastic systems. Graphic descriptions of systems, hierarchical diagram, ER diagram, structure chart. Soft systems methodology.			
16ZP	Elements of Law	Z,ZK	4
The purpose of education is to give students a basic understanding of legal issues that will be useful to them in an elementary way to understand the exten legal reasoning, the principles of creation, interpretation and application of the law and the relation of the public authority. Students also gain basic knowledge of selected fields of law in force, partially differentiated according to their specialization. On the basis of that knowledge should be able to graduate to know clearly contrary to fundamental legal principles and to communicate adequately with qualified attorneys.

Evaluation of projects in the field of computerization and informatization - Czech POINT, data boxes, electronic registers, GIS, KIVS, electronic notice boards.			
16XEF	European Social Fund	Z,ZK	5
European social fund and its position among other implemets of regional development and reaching of economic and social cohesion of EU and the Czech republic. Experiences gained during the realization of operational programmes financed by ESF and Initiative Association EQUAL financed by ESF in programming period 2000 ? 2006 and their transmission to the new programming period. Implementation of programmes financed by European social fund in Czech republic. Horizontal topics of European social fund and practical examples of their accomplishment in the proces of program and ESF project management.			
16XFR	Philosophical, Psychological, and Pedagogical Basics of Personality Development	Z,ZK	5
To introduce problems of development and creation of cretivity based on philosophy, psychology and pedagogy.The subject is focused on creativity and age, theory of creativity, process of creativity, barriers of creativity, devlopment of creativity.			
16XG	Geographic and Information Systems	Z,ZK	5
The course offers the following: the definition of Geographic and Information Systems (GIS); components, technological and programming equipment of GIS; acquisition costs and the life cycle of GIS components; geographic data and data models. The course also deals with resources and methods used in the acquisition of digital data, their types, linkage, and relational database models; geographically oriented database of spatial information; geographic and topological methods of information processing and its application; modelling and simulation of data structures, and GIS application areas. Cíl p edm tu			
16XIT	Information and Communication Technologies	Z,ZK	5
The following themes create the content of the course: ?listing of audio-visual technology ?computer networks (local and remote) ?topology, linking, addressing, communication protocols ?history of the Internet ?access to the Internet` ?FTP, Gopher and WWW protocols ? basics of functioning and usage, hypertext. ?communication services on the Internet ? electronic mail, IRC. ?searching information on the Internet ?Internet security, futher perspectives of the Internet development.			
16XIP	Inter-cultural Psychology	Z,ZK	5
The subject "Inter-cultural psychology" concentrates on gaining knowledge and skills for working in international teams, primarily of European Union environment, but students will have a chance to learn about other important world cultures as well - like leading American or Asian cultures. The content of this subject includes different aspects of intercultural interactions and understanding cultural differences - as language, habits, values or prejudices. Important parts of this subject are practical examples and intercultural communication exercises.			
16XP	Small and Medium Business	Z,ZK	5
The aim of the course is to provide for students necessary competences for feasibility study and business plan elaboration, to explain methods for construction, financial management and evaluation of a business plan/project. Students are able to understand accesses used on tactical and operational managerial levels.			
16XSP	Management of Construction and Developers´ Projects	Z,ZK	5
The course will acquaint the students with the preparation of developers´ projects, urban planning and projects designed for building permits. Marketing of developers´ activities including supply and demand analysis and forms of sales are among the key issues the course will deal with. The other areas include: ?Acquisition of estates ? practical implications in the given area. ?Financing of developer´s project ? financial analysis aimed at recoverability and the overall feasibility,financial resources, credits terms and conditions, optimum financing, time planning, cash flow administration, accounting, requirements for mortgage refinancing. ?Risk management ? definition, evaluation, restrictions, continuous supervision and risk management, final evaluation ?Management of project implementation and its organisation, change management with clients and suppliers.			
16XMS	Modernisation of Public Administration	Z,ZK	5
This course focuses on initial conditions and prerequisites for changes in public administration and management of public administration, on differences and similarities between public and private sectors. It also deals with the potentials to apply management tools to individual areas of Public Administration Management which includes strategic management in public administration, strategic development documents for territorial units on various levels of administration, human resources management, principles of financial management, quality management methods (models CAF, EFQM, BSC, benchmarking); public relations, local citizens´ participation in public administration, the role of a citizen, and with legislative framework of individual areas of administration.			
16XOP	Valuation of Firm and Projects	Z,ZK	5
The aim of the course is to acquaint students with the measurement and management of enterprise value so that they are able to make qualified estimate of the value of the company, depending on the stage of its life cycle, expected development and current financial condition. Students will learn about options of approaching the valuating and ensuing methods and gain skills in the application of basic methods. Practical skills will be acquired through case studies.			

16XNP	Presentation and Communication Skills	Z,ZK	5
By practicing and exercising, the students learn how to communicate successfully and how to prepare and provide speeches adequate for different situations. They will understand principals of verbal and nonverbal communication, structure and different drafts of informative and persuasive speeches, they will go through creative writing and some basic vocal training. They will learn how to use different methods of argumentation, how to deal with questions and to use visual aids.			
16XDO	Presentation Skills in English	Z,ZK	5
Development of language knowledge and skills focusing on better comprehension and comprehensibility of speaking and presenting opinions, services, study programmes and products.			
16XRM	Restoration and Urban Development	Z,ZK	5
The course provides an insight into the issue of city restoration , its types and tools, deals with sustainable development, urban restoration and sites conservation. The UNESCO heritage sites, European cultural cities, development strategy for regional systems and settlements, as well as restoration of small settlements development belong to the essential parts of the course.			
16XR	Reconditioning and Rural Development	Z,ZK	5
Obecným cílem p edm tu je p edstavit spole enský a hospodá ský význam venkova v souvislosti s využíváním p dy, správou p írodních zdroj a životního prost edí a s údržbou krajiny. Ke specifickým cíl m pat í získání základních znalostí a porozum ní problematice venkova a politik pro regeneraci a rozvoje venkova jak z národní, tak z EU úrovn . Pozornost je také v nována nástroj m pro udržitelný rozvoj venkova pomoci program , dotací, služeb a spolupráce.			
16XRZ	Administration of Municipalities and Regions	Z,ZK	5
The course deals with sustainable development, financial and information systems of municipalities and the strategies as worked out for the following areas: ?development of micro-regions ? development of big territorial units ?non-profit organisations ?implementation of changes in regions ?investments of municipalities ?choice of financial resources ?project assessments for credit financing of strategic projects ?PR strategy planning ?regional operational programs ?regional development agencies in the period of preparation, processing and implementation of strategies ?European Regional Planning Charter border and cross-border cooperation			
16XV	English for Meetings and Negotiations	Z,ZK	5
Consolidation and strengthening of the language skills needed for management purposes with the focus on improvement in practical communication.			
16XSC	Smart Cities and Smart Regions	Z,ZK	5
16XNSR	Municipalities and Regions Development Strategy	Z,ZK	5
The aim of the course is to understand the mission and the principles of regional/municipal development, the complexity of regional politics and the concepts such as sustainability, subsidiarity and partnership; to create a strategy of regional/municipal development, a plan of communication with stakeholders, institutions and general public; to discuss the challenge of public issues and public choice; to use the models and tools of practical strategic planning, modelling scenarios and making a choice of the most appropriate strategy.			
16XEU	Structures and Legislation of the European Union	Z,ZK	5
Content of the subject: Brief historical development of ideas concerning unification of Europe and forming of European Union. Contemporary external and internal environment of EU in globalised world. Institutions and other bodies of EU ? their characteristics, function and interrelationships between them. Basics and principles of EU legislation, the process of creating and approving and EU constitution. Unified european market and its strengths and weaknesses, economic competition, currency union, defence and development policy and implements for their realisation (particularly for structural policy). Concept of welfare state and accomplishment of it in member states of EU. Process of the EU enlargement and its orientation and employment in globalized world. Visions, goals and priorities of EU and expected development within new programming period 2007 ? 2013.			
16XNUP	Urban Planning and Regional Development	Z,ZK	5
Introduction to Urban Planning and Regional Development. System approach to settlements: components, features, infrastructure. Ecology and settlements. Fundamental environmental legislation. Culture and settlements. Regeneration of towns and conversation. Landscape and settlements. Countryside issues. Social and economic infrastructure of settlements. Humanization of housing estates. Problems of urban sprawls. Problems of brownfields. Policy of settlements and regions development. Fundamental urban planning legislation. Limits of land resources use. Perfect town.
