Characteristics of the courses of this group of Study Plan: Code=1.S.RRP-P OD 15/16 Name=1.s.RRP od 15/16 prezenční forma

The course aims at business and managerial language, as used in company management. The student's skills in foreign language speaking and writing are to be developed in the

area of management (work and motivation, company structure, managing across cultures, recruitment). The students are also acquinted with the most up-to-date professional jargon							
dealing with project management and project planning. Further training in the proper use of grammar structures is provided simultaneously with vocabulary extension.							
16MI2	Microeconomics	Z,ZK	4				
The course introduces t	he analysis of the financial markets at the intermediate level.						
16NOV	Employee Organization and Management	Z,ZK	5				
The aim of the subject is	to connect the students' knowledge of management and project management with new information on employee organization	n and manageme	nt. The outcome				
will be a graduate qualif	ied for employee management in practice. Topics covered are personnel planning, selection methods, team construction and	making good use	of team member				
potential. Also time mar	agement and delegation, situational management, performance evaluation and training of leading an evaluation discussion.	Last third of the s	ubject covers				
succession planning, motivation, influencing company culture and crisis situation solving.							
16RME2	Regional and Local Economy	Z,ZK	4				
Regional and municipal economy deals with social? economic development of regions and towns. It is based on spatial application of common economic theory and regional economy.							

Regional and municipal economy deals with social? economic development of regions and towns. It is based on spatial application of common economic theory and regional economy. The main part of the subject is analysing the processes that lead to spatial organization of the society. Another important part is analysing the government sector of regions and towns and the possibilities of influencing by the authorities that have responsibility for development of regions and towns. The subject contains also key concepts and pieces of knowledge from the field of territorial finance, connection between territorial finance, state budget and extra-budgetary funds and then the basic structure of incomes and expenses of territorial budget with an emphasis on the budgets of municipalities and regions of Czech republic. Students will also learn the theoretical foundations of the subject, especially the localization theories.

16RP | Project Management | Z,ZK | 5
The subject defines a project and a lifecycle of the projects. The organization of a project team and relations to organizations will be explained. Other subjects are planning, resource

management, using software for the project management, the process of a feasibility study development. Students will practice the methods for decision making applicable to projects as the decision trees development and the problem analysis.

16SRG2	Socio-economic Geography	Z,ZK	4			
The subject helps to un	The subject helps to understand the development, current situation and the main trends in economic distribution and other social? economic activities of man on different regiona					
levels. Students should	get basics of geographical thinking, they should understand problems in territorial context and the rules of development.

G04L9903 | English Language 3

The course aims at business and managerial language, as used in company management. The student's skills in foreign language speaking and writing are to be developed in the area of management (work and motivation, company structure, managing across cultures, recruitment). The students are also acquinted with the most up-to-date professional jargon dealing with project management and project planning. Further training in the proper use of grammar structures is provided simultaneously with vocabulary extension. In addition to this, the aim of the course is the acquisition of language skills, writing strategies and active vocabulary. The course focuses on practical application of the given phenomena.

Methodologically, the course relies on formal language analysis, systematic development of specialised vocabulary, competent use of relevant grammar, systematic practice of typical case-study situations, teamwork and giving feedback.
