Recomended pass through the study plan

Name of the pass: SpaceMaster - Passage through study

Faculty/Institute/Others: Faculty of Electrical Engineering

Department:

Pass through the study plan: Erasmus Mundus Master Course - SpaceMaster 2018

Branch of study guranteed by the department: Welcome page

Guarantor of the study branch:

Program of study: Cybernetics and Robotics Type of study: Follow-up master full-time

Note on the pass:

Coding of roles of courses and groups of courses:

P - compulsory courses of the program, PO - compulsory courses of the branch, Z - compulsory courses, S - compulsory elective courses, PV - compulsory elective courses, F - elective specialized courses, V - elective courses, T - physical training courses

Coding of ways of completion of courses (KZ/Z/ZK) and coding of semesters (Z/L):

KZ - graded assesment, Z - assesment, ZK - examination, L - summer semester, Z - winter semester

Number of semester: 1

Code	Name of the course / Name of the group of courses (in case of groups of courses the list of codes of their members) Tutors, authors and guarantors (gar.)	Completion	Credits	Scope	Semester	Role
BE3M35SPI	Space Instruments	Z,ZK	8	2P+2S	L	Р
BE3M35SPP	Space Physics	Z,ZK	7	2P+2S	Z	Р
BE3M35TSS	The Solar System	Z,ZK	7	2P+2S	Z	Р

Number of semester: 2

Code	Name of the course / Name of the group of courses (in case of groups of courses the list of codes of their members) Tutors, authors and guarantors (gar.)	Completion	Credits	Scope	Semester	Role
BE3M35APH	Atmospheric Physics	Z,ZK	8	2P+2S	L	Р
BE3M35SEI	Spacecraft Environment Interactions	Z,ZK	7	2P+2S	L	Р
		Min. cours.				
2010 CDACENAACTED DA	Compulsory optionally subjects	2	Min/Max			PV
ZUIO_OFACEWASTER_FV	Compulsory optionally subjects BE3M35ELS,BE3M35PAT, (see the list of groups below)	Max. cours.	15/41			PV
		6				

Number of semester: 3

Code	Name of the course / Name of the group of courses (in case of groups of courses the list of codes of their members) Tutors, authors and guarantors (gar.)	Completion	Credits	Scope	Semester	Role
BE3M35CSA	Control Systems for Aircraft and Spacecraft	Z,ZK	7	2P+2L	Z	Р
BE3M35IDP	Individuální projekt	Z	8	0P+6S	Z	Р
BE3M35SSM	Space systems, modeling and identification	Z,ZK	7	4P+2C	Z	Р

Number of semester: 4

Code	Name of the course / Name of the group of courses (in case of groups of courses the list of codes of their members) Tutors, authors and guarantors (gar.)	Completion	Credits	Scope	Semester	Role
BE3M35DIP	Diploma Thesis	Z	30	22S	L	Р
BE3M35ORC	Optimal and robust control design	Z,ZK	8	2P+2C	L	Р

List of groups of courses of this pass with the complete content of members of individual groups

Kód		Name of the group of group (for specification	courses and on see here o	codes of members of this r below the list of courses)	Com	pletion	Credit	s Scope	Semester	Role
					Min.	cours.				
2018_SPACEMA	ASTER_PV	Compu	Isory optiona	lly subjects	Max	2 cours.	Min/Ma 15/41	ıx		PV
						6				
BE3M35ELS	Electronics	in Space	BE3M35PAT	Polar Atmosphere	•	BE3M35	PSA	Propulsion wi	th Space Applic	catio
BE3M35SPC	Space Cor	nmunication	BE3M35SPS	Spacecraft Subsystems		BE3M35	SIS	Swedish for Ir	nternational Stu	ıden

List of courses of this pass:

Code	Name of the course	Completion	Credits
BE3M35APH	Atmospheric Physics	Z,ZK	8
BE3M35CSA	Control Systems for Aircraft and Spacecraft	Z,ZK	7
System Approach.	Object, System, Model. Dynamic Systems Continuous and Discrete Time, Qualitative Analysis of Systems. Poincare Map, Chaos. Lin	near Systems. Syst	em Stability,
Uncertair	nty and Robustness. Controllability and Observability. State Feedback, State Injection, Duality. Stochastic Systems, Realization of St	ochastic Processes	S.
BE3M35DIP	Diploma Thesis	Z	30
Independent final of	comprehensive work for the Master's degree study programme. A student will choose a topic from a range of topics related to his or I	her branch of study	, which will
be specified b	by branch department or branch departments. The diploma thesis will be defended in front of the board of examiners for the compreh	ensive final examir	nation.
BE3M35ELS	Electronics in Space	Z,ZK	8
BE3M35IDP	Individuální projekt	Z	8
Independent work	in the form of a project. A student will choose a topic from a range of topics related to his or her branch of study, which will be speci	fied by branch dep	artment or
	branch departments. The project will be defended within the framework of a subject.		
BE3M35ORC	Optimal and robust control design	Z,ZK	8
,		,	' . <u>.</u>
of the course is that	rise on control design will cover modern methods for optimal and robust control design. Emphasis will be put on practical computation of a system norm. Depending on which norm is minimized, different properties of the resulting controller are guaranted.	eed. Minimizing H2	norm leads
