Characteristics of the courses of this group of Study Plan: Code=1.S.BEK-P OD 10/11 Name=1.s.BEK-od 10/11 prezen ní forma

04BJA1	English Language 1	Z	4
The course is suitable for	or students of bachelor managerial studies. Seminars cover Business Terminology and Communication Skills as well as gran	mar. The course	focuses on
developing language sk	ills - reading, writing, speaking and listening, on understanding and orientation in a wide-range of topics, on strengthening ar	nd improving gram	nmar. All
interconnected languag	e skills are submitted to the goal of developing the required level needed for students'professional life.		
51ITP	Information Technology and Computer Literacy	Z,ZK	4
Students will learn how	to adjust MS Excel user interface, to create, edit and format tables, enter basic as well as advanced formulas and functions (with economic ar	nd managerial
applications); to underst	tand and apply absolute / relative cell references, create and format charts. They will learn to work with databases in Excel ar	nd learn how to us	se the functions
for searching, sorting da	ata, using conditional formatting. Students will become familiar with multiple consolidation ranges, analyze external data sour	ce, as well as larç	je spreadsheets
or databases to create	more complex types of graphs, create a PivotTable and graphs.		
51M	Mathematics	Z,ZK	6
Basics of linear algebra	- vectors, matrices, linear equations. Basics of differential calculation - limits, continuity of functions, derivation, monotony, loca	al and absolut ext	remes,convexity,
graphs. Basics of integr	al calculus - indefinite integral, methods of integration, definit integral and applications. Numerical calculation of integrals.		
51OP	General Psychology and Psychology of Personality	Z,ZK	6
TV1	Physical Education	Z	0
51TV1	Physical Education 1	Z	0
51UE	Introduction to Economics	Z,ZK	6
The course is focused of	n the following subjects: basic economic relations and consequences. Economic aggregates and their consequences. Opera	ting of the econor	mics according
to so called macroekone	omic circle, various economic theories. Consumption behaviour in microeconomics. Theory of production. Different markets a	nd competitions.	
51UV	Introduction to University Studies	Z	4
Content of the subject in	ncludes knowledge assisting students in quick and effective adaptation to conditions of university studies. Content of the subj	ect:Part 1 - adapt	ation, Part 2
ways of studying at univ	rersities, Part 3 - education and self-education.

Characteristics of the courses of this group of Study Plan: Code=4.S.BEK-JAZ.OD12/13 Name=4.s.BEK-cizí jazyk od 12/13

04BJA4	English Language 4	Z,ZK	6		
The course is suitable for students of bachelor managerial studies. The course focuses on developing all four language skills at the given level, i.e. reading, writing, speaking and					
listening, on understanding and orientation in a wide-range of topics in the students' respective professional and acedemic context, as well as on strengthening and improving grammar.					
All interconnected language skills are submitted to the goal of developing the required level needed for students' academic and professional life.					
04BJA4-1	English Language 4-1	Z,ZK	4		
The course is suitable f	or students of bachelor managerial studies. The course focuses on developing all four language skills at the given level, i.e. re	eading, writing, sp	eaking and		
listening, on understand	ing and orientation in a wide-range of topics in the students' respective professional and acedemic context, as well as on strer	igthening and imp	proving grammar.		
All interconnected lange	lage skills are submitted to the goal of developing the required level needed for students' academic and professional life.				
04BJN4-1	German Language 4-1	Z	2		
04BJS4-1	Spanish Language 4-1	Z	2		
The course is suitable for bachelor students. The course develops all language skills in the Spanish language on the level A1 according to the CEFR: speaking, reading, listening and					
writing. Students will familiarise themselves with the basics of Spanish grammar and lexis for everyday situations. The course focuses on communicative skills. The course is designed					
EXCLUSIVELY for beginners/ false beginners.

51EDTB	Online information retrieval and the work with electronic information resources	KZ	2
-	bcused on knowledge and skills required for the work with course and scientific literature, for information resources		
	quiring desired information and literature, for applying newly acquired knowledge in practice during the work on bachelor thesis, and f		
	citation ethics and citation practice incl. citing and creating reference lists.	or acquiring the pr	
51ES	Economic Statistics	Z,ZK	4
	nomic Statistics is oriented on measurement of economic events at microeconomic and macroeconomic level. This course will provide s		-
,	of descriptive statistics, regression and correlation analysis, indexes analysis, time series analysis and measurement of the seas		
51FG	Financial Literacy	KZ	4
	Financial agency Investment and financial markets Leasing Old-age pension insurance Insurance companies Management of person		
51FP	Business Financing	Z.ZK	6
-	familiar with the problematics o financial management of the business, analysis and interpretation of financial information, external ar	,	
-	ncing financial sources and applications, working capital management, investment evaluation, basics of financial mathematics and fin		,
51G	Globalization	Z,ZK	6
	to explain globalization as an economic phenomenon and to bring the environment in which the world economy develops. Demonstra	,	-
	on integration processes, economic environment and personal liberty.	Ū	
51ITP	Information Technology and Computer Literacy	Z,ZK	4
	n how to adjust MS Excel user interface, to create, edit and format tables, enter basic as well as advanced formulas and functions (with		nanagerial
applications); to ur	nderstand and apply absolute / relative cell references, create and format charts. They will learn to work with databases in Excel and I	earn how to use th	e functions
for searching, sort	ng data, using conditional formatting. Students will become familiar with multiple consolidation ranges, analyze external data source,	as well as large sp	readsheets
	or databases to create more complex types of graphs, create a PivotTable and graphs.		
51LZ	Human Resources Management	Z,ZK	6
Students will devel	op basic knowledge on personal planning, personal marketing (searching and evaluating new personnel, including methodology and for	ms of recruitment),	assesment
	of work performance and remuneration, outplacementu and forming labour force.		
51M	Mathematics	Z,ZK	6
	ebra - vectors, matrices, linear equations. Basics of differential calculation - limits, continuity of functions, derivation, monotony, local and		s,convexity,
	graphs. Basics of integral calculus - indefinite integral, methods of integration, definit integral and applications. Numerical calculation	-	
51MJ	Quality Management	Z,ZK	4
51MK	Marketing	Z,ZK	6
, s	urse makes the students familiar with some basic concepts, such as marketing and business strategies, market segmentation, market		e e
and the application	thereof, product policy, new product, product life cycle, pricing policy, pricing strategy, pricing methods and factors, distribution policy, ty	pes of intermediate	distribution
	links, marketing distribution systems, marketing communications and new trends in marketing.		
51OP	General Psychology and Psychology of Personality	Z,ZK	6
51PBP	Project of Bachelor Thesis	Z	6
	or's degree paper will particularly include paper topic, topis specialization, explanation, further concretization; teoretic basis - survey		
	formulation and design, literature and sources analyses; paper goalse (structure of the goals and their appicability); hypothesis formulation and the second se		esis, partial
	theses); empiric survey; sample research (e.g. respondents and their analyses); time table of each work periods; plan and consultatio		0
51PE	Business Economics	Z,ZK	6
51PML	Operational management and logistics	KZ	4
	overs many facets of logistics and supply chain management to create significant competitive advantages. The graduates can find their		
	nning and scheduling process; making effective use of the enterprise resources planning (ERP) system, while anticipating its impact		
	planning and forecasting while translating internal and external customer demands; and managing the supply chain while evaluating	-	
	rinciples and concepts. In this specialization students will learn to meet these challenges by getting to grips with key issues in supply	e e	
	pest location for production facilities and distribution centres, and identifying the resources they need. They will learn how to structure ousing, transport and distribution, and purchasing. The key is to give customers the standard of service they want and to ensure proc		
	ent is about understanding the impact of customized logistical designs on overall performance. Students will apply advanced software	-	
	planning and integer linear programming problems, capacity analysis of production systems, distribution planning and vehicle ro	-	
51PP1	Law and Business 1	Z,ZK	4
	Law and business includes the following: -labour law, its basis and role within the legal system -labour relations, international consec	· · ·	
-	ulation -termination of employment -working hours, vacancy -wage, salary, -discretion and duties of the employer and employees -he		
51PP2	Law and Business 2	Z,ZK	4
	evelopment of the commercial law, its relation to the civil law -system of the commercial law -business (not based on the Trade law), en		
	ents -ensurance of business commitment -different contracts in accordance with the Commercial Code -business companies: -partne	-	
	liability -joint stock companies -other companies -international and multinational companies	•	
•			

51PPO	Work and Organizational Psychology	Z,ZK	6			
	y of work and organization contains the following: theory, research and practices in psychology of work, individual differences among					
to work behavio	ur, work analysis, monitoring of the effectiveness. Psychological basis for staff selection, emploees evaluation, analysis and modification	on of work behavio	our, work			
	motivationí, psychological aspects of personnel training, work under pressure. Basic terminology.					
51PRR	Project Management	Z,ZK	6			
-	Anagement. The Evolution Toward Integrated Projects. Alignment of Projects with Organization Strategy. A Project Portfolio Manager Priority, Choosing the Appropriate Project Management Structure, Implications of Organizational Culture for Organizing Projects.		-			
	Effectiveness of the Priority. Choosing the Appropriate Project Management Structure. Implications of Organizational Culture for Organizing Projects. Establishing Project Priorities. Responsibility Matrices. Estimating Project Times and Costs. Types of Project Constraints. Rationale for Reducing Project Duration. Managing Project Teams. Managing International					
	is will be placed on the functional areas of initiating the project and project planning methodology. Each student is required to comple					
	ess of project management will be outlined and evolving changes in management practices discussed. The course is designed to prov		-			
information and s	kills necessary to manage projects of the enterprise. Tuition suitably links sequence of managerial and technical subject categories a	and simultaneously	reacts to			
topical busi	ness and graduation theses requirements. Teaching methods will include lectures, group presentations and discussions of cases as w	vell as other exerci	ises.			
51PS	Production Systems Design	KZ	4			
Content of course	modern methods of modern production system design, that leads to increasing productivity and effectivity of different organization of	onfigurations. Proj	ects will be			
also focused on fa	illure free production flow, from material purchase, to contented customer. Course integrate knowledge of appropriate managerial, ec	onomic and techni	ical course			
	with current requirements of business practice.					
51PTE	Advanced Technologies	KZ	4			
51PUC	Business Accounting	Z,ZK	6			
Content of the cour	se is introduction to accounting. Double-entry bookkeeping and its principles, balance sheet account, profit and loss account, cash-flow.	. Sections in bookk	eeping:long			
540	term investment, stock, costs, revenues, International accounting standards, accounting principles. Accounting system.	7 71/	0			
51S	Sociology	Z,ZK	6			
Content of the cours	se is focused especially on the following topics:Sociology as a science, sociologic way of thinking including historic aspects, terminology Social roles management. The Czech society in 21st century. Sociologic research.	y. Sociology and ma	anagement.			
51TBP	Bachelor Thesis	Z	8

51XHT	Technology Assessment	KZ	4		
	sment is a complex, multidisciplinary, transdisciplinary and interdisciplinary field on the frontier of philosophy and sociology of techno				
economics and pro	gnostication. TA is a scientific, interactive and communicative process which aims to contribute to forming public and political opinion of	n social aspects of	technology		
	and science development.				
51XKD	Communication Skills	KZ	4		
Students get acqua	inted with the principles of communicative and presentation skills, analyse the obtained skills and competencies, receive and provide	feedback using sel	f-evaluation		
	so that they improve their abilities to communicate and perform high quality presentations.				
51XNM	Material Science	KZ	4		
	ent state of materials engineering, overview of technical materials, internal structure of metals, crystal lattices and their defects, defor		ation and		
	e of materials, structure and properties of materials and their testing, iron-carbon phase diagram, overview of steels, cast irons and r				
51XPD	Presentation Skills	KZ	4		
Students will learn	how people act and interact, develop rules of verbal and nonverbal communication, including most common mistakes. In addition, s	tudents will develop	o their own		
	presentation skills. Students will present their skills using videotechniques and get feedback, "peer-review".				
51XPIS	Project of Information System	KZ	4		
	s, information systems architecture, basic types of software applications for information system of enterprise, information system lifecy				
system developme	nt, management information systems, web audit, business process modeling using BPMN, UML and others, information system modeling using BPMN, using BPMN, UML and others, information system modeling using BPMN, using B	eling - UML and da	ta modeling		
	using ER diagrams				
51XPK	Corporatae Crisis	KZ	4		
	urse is an introduction of negative impacts of internal and external factors on the corporate life cycle. Crisis and corporate default are				
	nportant for students to be prepared on such a possible development and to have the knowledge to eventually reverse the unfavoura	•	· .		
Knowledge shoul	d be in economic as well as in legislative perspective. The course will be especially based on case studies and practical applications	respecting current	economic		
	reality and legal regulation.				
51XSE	Social Aspects of Energetics	KZ	4		
	ne course is the presentation of information from a variety of ideological streams in the context of global energy problems of mankind. T				
	plems and to facilitate orientation of students in them. Students will learn about the engineering and economic approaches to the ass				
	e issue of energy security, for example in connection with the oil crises, with views of socially relevant groups of opinion on the directive terms of a social security of the interaction of the crises and associate of a social security of the interaction of the crises of a social security of the interaction of the crises of a social security of the interaction of the crises of a social security of the crises of				
policy implemented	I in the EU and the Czech Republic. The course also includes definitions and aspects of sustainable development, the importance of e and the debate on global climate change.	nergy to the nation	al economy		
E4VOI		1/7	4		
51XSI	Systems Engineering and Information Systems system database, database implementation using SQL, data retrieval from transaction systems and data processing, OLAP measure	KZ	4 decign and		
Design of primary	implementation for decision making purposes and results reporting using pivot charts and tables.	s and dimensions	design and		
51XSMR		KZ	4		
	Statistical Methods for Decision Making		4		
51XTS	Rhetoric	KZ	4		
Rhetoric provides an insight into rhetorical skills, voice & amp; breath management, understandable articulation/pronunciation, speech speed and phrasing. The curriculum includes					
	tion practise based on pre-prepared and impromptu presentations, methods of developing rhetorical skills, target audience identifica				
· ·	and language creativity. The course lays the foundations for effective communication training that is then followed up in Social Psychology				
51XZS	Healthy Lifestyle	KZ	4		
	lealth, legislation, factors influncing helath, way of living, civilization illnesses, healthy nutrition, work and relaxation, physical and mer				
51ZPM	Basics of Business Management	Z,ZK	6		
51ZSV	Basics of Engineering Production	Z,ZK	4		
Basic technologie	es of semifinished products production, special technologies of alloying, forming work, welding and thermal parting. Basic information	on production, fini	shing and		
	unconventional methods of machining work. Programming, CAD/CAM systems.
