Study plan

Name of study plan: Planning and Management of Crisis Situation - full-time

Faculty/Institute/Others:
Department:
Branch of study guaranteed by the department: Welcome page
Garantor of the study branch:
Program of study: Population Protection
Type of study: Bachelor full-time
Required credits: 180
Elective courses credits: 0
Sum of credits in the plan: 180
Note on the plan:

Name of the block: Compulsory courses Minimal number of credits of the block: 180 The role of the block: Z

Code of the group: 17PBP POV 15 Name of the group: Planning and Management of Crisis Situation compulsory course 15 Requirement credits in the group: In this group you have to gain 180 credits Requirement courses in the group: In this group you have to complete 63 courses Credits in the group: 180 Note on the group:

Characteristics of the courses of this group of Study Plan: Code=17PBP POV 15 Name=Planning and Management of Crisis Situation compulsory course 15

17PBPAMN	Analysis, Methods and Tools for Dealing with Crisis Situations	Z,ZK	3			
The goal is to basics and key analysis tools and methods of crisis management, to the extent necessary for the understanding of safeguarding the population against the effects of						
emergencies or non-mil	tary crisis. In addition to acquaint students with the scope and activities in the construction and protection of critical infrastructu	ure elements and F	European critical			
infrastructure. The educ	ation policy will be clarified and emergency planning and preparedness in the area of ??the state population. Practically the	practice of mid-rar	∩ge planning,			
evacuation and treatme	nt planning assumptions protection plan for processing critical infrastructure elements.					
17PBPAK	English Conversation	KZ	2			
The course is geared to	building on existing language skills acquired by students in order to achieve a high level oral communication (intense conve	rsation). Students	discuss actively			
the topics presented du	the topics presented during the lessons. They express their opinions and sugest possible solutions.					
17PBPAOT	English Professional Terminology	KZ	3			
The aim of the course is	to acquiant student with the terminologie related to their field of study. Students learn how to use the vocabulary in real situa	tions, when solvin	g real problems.			
The course is primarily	focused on communication and on the development of english speaking skills.					

	Occupational Safety and Health, Fire Protection and First Aid	Z	0
17PBPBIS	Security of Information Systems and Networks	Z,ZK	3
-	understanding the principles of security risks in information technology, the preventive treatment and management. Students will	-	-
-	the sense of security in large information systems. Students will learn the principles of the new solution practices, which lead to secure information systems.	the design, installa	tion, operation
17PBPBPS	Security Policy of the State, the Defense of the State and its Security	Z,ZK	5

	otect social interests. The knowledge of features and content security police authorities acquire, both state and non-government					
	e regulatory importance of legal standards and analysis of investigation types of security activities, the characteristics of ess	ential elements ar	nd methods of			
-	ty situation, and the information systems important for the internal security of the Czech Republic.					
17PBPZEK	Fundamentals of Crisis Management Economics	ZK	4			
	to acquaint students with problems of economic measures for crisis situations in the civil emergency planning. Education is me		5			
	nent, economic mobilization, regulatory measures, state material reserves and requirements for the construction of infrastruction of	ture. Emphasis wi	II be placed also			
	in úkolky state material reserves.					
17PBPZIT	Fundamentals of Information Technology	KZ	2			
17PBPZNZ	Fundamentals of Arms and Munitions	KZ	3			
The goal is to provide st	udents with basic information and knowledge about the construction and operating principles and how to use small arms, the	knowledge and h	abits necessary			
for practical shooting. En	mphasis will be placed on knowledge of laws, decrees and regulations dealing the possession and use of weapons, firing on	the clarification of	f the rules and			
precautions when shoot	ing. The next part will be practiced using service weapons issues in the conflicts and operations, and practical training in sho	oting of short and	l long of small			
arms.						
17PBPZPR	Fundamentals of Pyrotechnics	KZ	3			
In this series of lectures	and seminars, students are acquainted with the history, structure, basic terminology, principles and legislation of pyrotechnic	c activities. The cc	ourses are			
conducted and sample i	mitation performance measures are used in the Czech Republic Army and Police of the Czech Republic areas. The examina	tion will be based	on knowledge			
of current issues and pr	actices towards the rules that determine the types of activities that may be carried out.					
17PBPZRRBA	Fundamentals of Radiobiology and Possible Misuse of Radiological and Biological Agens	ZK	3			
	to acquaint students with 21st century security risk, which is the phenomenon of terrorism and the principles of organization		-			
	ents and nuclear and radiological materials. The hazards of these substances are potentially either directly (nuclear and radio					
	is forms of contamination, the use of toxins produced by microorganisms) or indirectly in attacks on civilian targets using nucle	•				
	pically nuclear power, research facilities or powerful radioactive sources used in industry and medicine). Options prevention,					
	al aid in threat these substances, materials and agents. Control of these hazardous substances and materials, international re-	-				
of the role of international organizations, legislative instruments and protection system against the potential dangers of the possible use of these substances or uncontrolled release						
into the environment du	e to sabotage or attacks on the installations.					
17PBPZS	Fundamentals of Somatology	ZK	4			

17PBPZTS	Fundamentals of Theory of State and Low	ZK	3			
17PBPZTX	Fundamentals of Toxicology	Z,ZK	3			
17PBPZZT	Introduction to Rescue Equipment	KZ	3			
17PBPZBP	Bachelor Thesis	Z	1			
17PBPZKM	Special Communication During Emergencies	Z	2			
Students acquire a con	Students acquire a comprehensive knowledge of communication skills that could be applied in difficult situations. Students will become familiar with basic theoretical postulates of					
stress and managemer	stress and management thereof, including a firm base on the techniques of crisis intervention and communication in emergency situations, both for individuals and in groups. Graduates					
will be able to use this	vill be able to use this vital knowledge in working in aid professions.					

List of courses of this pass:

	Name of the course	Completion	Credits
17BOZP	Occupational Safety and Health, Fire Protection and First Aid	Z	0
17PBPAK	English Conversation	KZ	2
The course is geare	d to building on existing language skills acquired by students in order to achieve a high level oral communication (intense conversat	1	uss actively
	the topics presented during the lessons. They express their opinions and sugest possible solutions.		
17PBPAMN	Analysis, Methods and Tools for Dealing with Crisis Situations	Z,ZK	3
	cs and key analysis tools and methods of crisis management, to the extent necessary for the understanding of safeguarding the pol		e effects of
emergencies or non	military crisis. In addition to acquaint students with the scope and activities in the construction and protection of critical infrastructure	elements and Euro	pean critica
infrastructure. The	education policy will be clarified and emergency planning and preparedness in the area of ?? the state population. Practically the pr	actice of mid-range	e planning,
	evacuation and treatment planning assumptions protection plan for processing critical infrastructure elements.		
17PBPAOT	English Professional Terminology	KZ	3
The aim of the cours	se is to acquiant student with the terminologie related to their field of study. Students learn how to use the vocabulary in real situation	ns, when solving re	al problems
	The course is primarily focused on communication and on the development of english speaking skills.		
17PBPBIS	Security of Information Systems and Networks	Z,ZK	3
Study is focused	on understanding the principles of security risks in information technology, the preventive treatment and management. Students will	learn the basic pri	nciples of
security, understand	I the sense of security in large information systems. Students will learn the principles of the new solution practices, which lead to the	e design, installatio	n, operatior
	and maintenance of secure information systems.		
17PBPBPS	Security Policy of the State, the Defense of the State and its Security	Z,ZK	5
17PBPCHB	Chemistry for Bachelors	Z	2
Introduction to cl	nemistry, categorization and properties of substances, chemical bonds, chemical reactions, elements in periodic table, organic chem	nistry fundamentals	s, natural
	substances, polymers, analytical methods - instrumental analysis, chemical calculations, chemical equations.		
17PBPCNP	Civilian Emergency Preparedness	Z,ZK	3
The goal is to basic	s and main principles of Civil Emergency Preparedness (CNP), to the extent necessary for the understanding of safeguarding the p	opulation against th	he effects o
emergencies or c	risis situations non-military character. Cooperation in the field of CNP at the international level is particularly within the European Ur	nion and NATO. Co	operation
between NATO and	d EU civil protection aims to better protect people, their environment, property and cultural heritage in the event of major natural disa	asters or disasters	caused by
human factors arisin	ng both inside and outside the EU. The training will be clarified as well as crisis intervention policy and preparedness UN and the OS	SCE and the basic	structure of

17PBPLG	Logistics	KZ	3
	ourse is to acquaint students with current logistics business practices in the competitive environment of the EU, the CR and of world		-
	effective implementation of logistics management for a given company.	marnoto, proparing	
17PBPLVK	Summer Training Course	Z	2
	· · · · · · · · · · · · · · · · · · ·	Z	3
17PBPLZKS	Human Resources and Crisis Situations		-
17PBPMB	Mathematics for Bachelors	Z,ZK	4
17PBPMKR1	Management and Crisis Management I	Z	4
17PBPMKR2	Management and Crisis Management II	ZK	4
The goal is to prov	ide students with basic information about the theory and practice of management and major categories of necessary control function	s. Emphasis will be	e placed on
understanding man	agerial skills, profile manager, change management. The next part will be practiced principles of planning time, work efficiency manage	r, the specifics of m	nanagement
	of government.		
17PBPMVP	Methodology of Scientific Research	Z	2
The course is an i	ntroduction to the basics of science - from the organization side of scientific activities in the Czech Republic and abroad, through org	anizational grant a	gencies. In
	of acquiring information through literature, Internet and other resources is examined - how to handle literature searches, how to proc		
critically evaluate th	he results, as processes, as presentations (oral communication in lectures, seminars, poster communication, written presentations).	Students learn in d	etail how to
	present the results of their scientific theories.		1
17PBPOB	Building Safety	KZ	3
	re aimed at security problems associated with protecting people, property and buildings in terms of technical and technological soluti		
security analysis, lis	sted buildings and usable methods and techniques of safety management. Attention is devoted to the design and management of secur	rity systems using	optimization
	in terms of their own security but also economic costs.		
17PBPOPR1	Practical Training (Public Administration Departments of Crisis Management)	Z	2
17PBPOPR2	Practical Training II (SÚJCHBO, SÚRO and Emergency Services)	Z	3
Professional experi	ence allows students to apply at specialized institutes their theoretical knowledge and practical skills that they gained, from classroom	ns and laboratories	. It provides
	ring their habits and skills, teaches students independence, responsibility and teamwork. The course is under the guidance of a quality		
department, which	shares responsibility for the student. Designs for workplace learning are selected based on established standards. The scope and co	ontent of profession	nal practice
i	s a defined curriculum, character study and practice of internal regulation, which provides formal and substantive conditions of practi	cal training.	
17PBPOZP	Organization of Rescuing Actions	Z,ZK	3
The course is part of	of the specialist subjects, and is aimed at expanding students' managerial knowledge to protect the population. The course strives to a	cquaint students w	ith a history
	of providing aid and relief organizations working various types of disasters.		
17PBPOZR	General Principles of Dealing with Emergency and Crisis Situations	Z,ZK	4
17PBPPKS	Psychology of Crisis Situations	KZ	2
The aim of this cour	rse is to acquaint students with various techniques and methods of helping individuals to cope and deal with stress, conflict, and crisis		I allow them
greater self-knowle	dge and knowledge of others, empathy, congruence, and acceptance. Integral parts of the practical training are individual techniques, g	roup work, and fina	al "inquiries"
	integrating the lessons learned and experiences acquired.
