Study plan

Name of study plan: navaz. mag. PRE program DS 21/22 (program DS) -skok do 2.r.

Faculty/Institute/Others:

Department:

Branch of study guaranteed by the department: Welcome page

Garantor of the study branch:

Program of study: Transportation Systems and Technology

Type of study: Follow-up master full-time

Required credits: 120 Elective courses credits: 0 Sum of credits in the plan: 120

Note on the plan:

Name of the block: Compulsory courses Minimal number of credits of the block: 93

The role of the block: Z

Code of the group: 1.S.NPDS 20/21

Name of the group: 1.sem.nav.prez (od) 20/21 - program DS

Requirement credits in the group: In this group you have to gain 22 credits

Requirement courses in the group: In this group you have to complete 7 courses

Credits in the group: 22 Note on the group:

Code	Name of the course / Name of the group of courses (in case of groups of courses the list of codes of their members) Tutors, authors and guarantors (gar.)	Completion	Credits	Scope	Semester	Role
12IKD	Rail Transport Infrastructure Lukáš Týfa, Ond ej Trešl	Z,ZK	5	2P+2C	Z	Z
12TKVP	Highway Engineering Materials Otakar Vacín	Z,ZK	4	2P+2C	Z	Z
18GAZ	Geomechanics and Foundation Engineering Jitka ezní ková, Linda erná Vydrová Linda erná Vydrová (Gar.)	Z,ZK	3	2P+1C	Z	Z
18TIK	Theory of Engineering Structures Petr Koudelka, Petr Zlámal, Ond ej Jiroušek	Z,ZK	4	2P+1C	Z	Z
14GISS	Geographical Information Systems František Kekula, Tomáš Janata, Zuzana Purkrábková Tomáš Janata Tomáš Janata (Gar.)	KZ	2	0P+2C+8B	Z	Z
22MSV	Modelling and Vehicle Movement Simulation Michal Frydrýn, Drahomír Schmidt Drahomír Schmidt (Gar.)	KZ	2	0P+2C	Z	Z
15J2A1	Language - English 1 Barbora Horá ková, Jitka He manová, Dana Boušová, Lenka Monková, Peter Morpuss, Markéta Vojanová, Marie Michlová, Marek Tome ek, Markéta Musilová,	Z	2	0P+2C+10B	Z	Z

	Wusiiova,		
Characteristics of	f the courses of this group of Study Plan: Code=1.S.NPDS 20/21 Name=1.sem.nav.prez (od	l) 20/21 - progr	am DS
12IKD	Rail Transport Infrastructure	Z,ZK	5
Non-compensated later	al acceleration, parameters eduction for transition curve and cant transition, curves without straight, track spacing change. Track	detailed construction	on. Substructure
design, slab track. Tran	n-train. Interoperability. Noise precautions. Railway line modernization for non-tilting and tilting trains.		
12TKVP	Highway Engineering Materials	Z,ZK	4
The theory of road con	struction - Material Aspects. The course emphasizes the development of road construction from the beginning of the 20th ce	ntury to the present	t, focusing on
materials, understandir	ng the production and placing of asphalt mixtures.		
18GAZ	Geomechanics and Foundation Engineering	Z,ZK	3
Geology (basics of per	trographyand stratigraphy), mechanics of soils (classification of fundamental soils, mechanic properties of fundamental soils,	permeability), plan	ar foundations
(footings, footers, plate	s, depth of founding), determination of planar foundations bearing and deformation, depth foundations – classification of dep	th foundations elem	ients, examples
of their use, piles (class	sification, technology od performing).		
18TIK	Theory of Engineering Structures	Z,ZK	4
The course builds upon	the knowledge gained in basic mechanics courses in bachelor study (especially Statics and Elasticity) in the field of mathem	atical theory of elas	ticity. Emphasis
is placed on plane and	axisymmetric problems, as well as on the calculation of stress and strain in plates and shells. Students are further acquainte	d with methods of r	modeling the
behavior of subsoil use	d in the design of line structures.		
14GISS	Geographical Information Systems	KZ	2
Construction of saving	format of space-oriented information land-survey and cartography minimum basic tasks of spatial operations principles of te	rritorial identificatior	n

22MSV	Modelling and Vehicle Movement Simulation	KZ	2		
Principles and posibilit	Principles and posibilities of simulation tools with regards to vehicle movement analysis and vehicle crash analysis. Kinematic and dynamic modelling of v				
View conditions. Propo	osed road space passage. Processing of road 3D models.				
15J2A1	Language - English 1	Z	2		
Presentation Skills - 6	Presentation Skills - expert technical discourse and style: Analysis of expert texts and their production. Preparation for overseas work engagement				

Code of the group: 1.S.NPDS VYB R 20/21

Name of the group: 1.sem.nav.prez (od) 20/21 výb r p edm tu - program DS Requirement credits in the group: In this group you have to gain 4 credits

Requirement courses in the group: In this group you have to complete 1 course

Credits in the group: 4 Note on the group:

Code	Name of the course / Name of the group of courses (in case of groups of courses the list of codes of their members) Tutors, authors and guarantors (gar.)	Completion	Credits	Scope	Semester	Role
12MSD	Traffic Models	Z,ZK	4	2P+2C	Z	Z

15JBA2	Language - English 2 Barbora Horá ková, Jitka He manová, Dana Boušová, Lenka Monková, Peter Morpuss, Markéta Vojanová, Marie Michlová, Marek Tome ek, Markéta Musilová,	Z	2	0P+2C+10B	L	Z

Characteristics o	f the courses of this group of Study Plan: Code=2.S.NPDS 20/21 Name=2.sem.nav.prez (od)	20/21 - progr	ram DS
12NAPI	Design and Maintenance of Transportation Structures	Z,ZK	4
Design and construction	on of cement-concrete pavements and their maintenance. Construction of bridge objects, examples and choice of bridge const	ruction materials.	Construction
and operation of tunne	ls.		
12UMUP	Sustainable Mobility and Land - Use Planning	Z,ZK	5
Spatial planning - obje	ctives and tasks, development over time. Land-use planning tools. SUMP. Territorial and transport planning context. Ways of ur	ban growth in con	nection with
transport. Basic princip	les of the transport solution. The impact of transport on the size and shape of the city, on the development of the street and th	e square and the r	roads. Solutions
for pedestrian and bicy	cle transport. Suburbanization and transport. City economics.		
12ZSUZ	Railway Stations and Centres	Z,ZK	3
Equipment for passeng	er transport. Platform construction. Access roads to platforms. Modification of railway stations according to the TSI PRM. Static	on heads design. V	ariant solutions
of station heads for cu	rent ride. Junction stations. Crossing stations. Passenger stations. Moving stations. Public transport terminals.		
16PDP	Principles of Vehicle Design	ZK	2
Design of transportation	n vehicle according to its usage and function. Marketing and user demands. Vehicle dynamics. Propulsion systems. Design pr	ocess, functional c	design and

22AMMD	Measuring Methods Applied to Transportation	KZ	4			
Geodetic location and	seodetic location and technical processing of traffic route with geodetic total station, GPS and photogrammetry, 3D scanning. Transport corridor setting out using geodetic method					
Detection and technical	Detection and technical processing of several vehicle dynamic characteristics using high-speed cameras and accelerometers. It is a week course and the term					
and September - usua	lly in examination period.					
15JBA2	5JBA2 Language - English 2 Z 2					
Presentation Skills - ex	esentation Skills - expert technical discourse and style; Analysis of expert texts and their production; Preparation for overseas work engagement.

Characteristics of the courses of this group of Study Plan: Code-3 S NPDS 21/22 Name-3 sem nav prez (od) 21/22 - program DS

statistical and microscopic traffic models. Theory of traffic management. Traffic light signals, roundabouts, coordination, public transport priority. Urban and highway management.

Characteristics of the courses of this group of Study Plan: Code=3.S.NPDS 21/22 Name=3.sem.nav.prez (od) 21/22 - program DS							
11STS	Stochastic Systems	Z,ZK	4				
The subject deals with	The subject deals with the problems of mathematical modelling of dynamical systems, estimation od these models and their utilization for prediction. The results are illustrated on						
practical transportation	tasks. Mathematical theory roots from probability and mathematical statistics and they use the methods of the Bayesian probability	oabilistic approach	1.				
12DAZP	Transport and Environment	Z,ZK	4				
This course aims the in	pact of transport on environment. The accent is put mainly on noise and vibration, emission, barrier effect and energy demar	ds. The noise mea	asury is part and				
parcel of this course.							
12TEAP	Theory of Road Traffic Operation	Z,ZK	7				
Traffic parameters and their measurement, acquisition and processing. Road capacity analysis. Theoretical foundations and applications of mathematical models - macroscopic,							

High Speed Rail Transport
High speed railway (HSR) transport characteristics and position in transportation system. Types / models of HSR systems, preparation of high speed railway lines building in the Czech Republic conditions. Non-adhesion HSR systems. City and region traffic service by HSR. HSR operating points. HSR worldwide network. HSR routing and traffic conception. Specifics of HSR track construction and layout track parameteres.

Name of the block: Compulsory elective courses

Minimal number of credits of the block: 6

The role of the block: PV

Code of the group: Y2-NPDS 21/22

Name of the group: PVP nav.prez. program DS 21/22

Requirement credits in the group: In this group you have to gain 6 credits

Requirement courses in the group: In this group you have to complete 3 courses

Credits in the group: 6 Note on the group:

Code	Name of the course / Name of the group of courses (in case of groups of courses the list of codes of their members) Tutors, authors and guarantors (gar.)	Completion	Credits	Scope	Semester	Role
17Y2AM	Application of Marketing Tools in Transportation	KZ	2	2P+0C	L	PV

assification of road acci	Satety On The Local Roads idents rates, social looses. Collision points, diagrams. Tools and methods for safer road trans s. Pedestrian transport, cyclists. Traffic lights coordination. Transport control and regulation	•	roads from	1 .		_

ΚZ

2P+0C

Computer Graphics and Virtual Reality

16Y2PG

Application of marketing principles in transport issues, marketing tools suitable for transport, case studies of the use of marketing in the sphere of public passenger transport.

12Y2BM Safety on The Local Roads

Classification of road accidents rates, social looses. Collision points, diagrams. Tools and methods for safer road transportation. Crossroads from the point of view of safety. Psychological right of way. Roundabouts. Pedestrian transport, cyclists. Traffic lights coordination. Transport control and regulation.

23Y2BP Security Class

The most prevalent topics include data management, data and text mining applications, terrorism informatics, deception and intent detection, terrorist and criminal social network analysis, crime analysis, cyber-infrastructure protection, transportation infrastructure security, and information assurance, among others.

21Y2BS

Unmanned aircraft systems 2

Modern trends in unmanned aircraft development. Use of unmanned aircraft. Managerial activities related to the operation of unmanned aircraft. Flights beyond the applicable legislation.

Fundaments of working with CATIA, making basic parts and bodies. Making 2D sketches, geometric stucture, parametric linking, making adaptive models from 2D sketches. Import and export of made parts and bodies. Making assemble and visualization.

14Y2C2 CATIA II		
1412G2 CATIA II	KZ	2
Extension of basic course. Modeling compound bodies. Possibility of enumeration, comunications with other systems. Surface x solid bodies. Kinem	atic mechanism. F	roject making
and project cooperation. Outputs of projects.	V7	2
14Y2CS Sensitivity of Systems Design of systems with defined reliability. The impact of changing parameters and subsystems within a system. System sensitivity computing, defini	KZ tion of sensitivity f	
matrices and their usability in system design.		u
21Y2CR CRM	KZ	2
Introduction to CRM. Analysis of air accidents. Human factor. Error. Historical development of CRM. Health and fitness. Stress and its effect on the h	uman body. Fatigu	ue Sleep &
Vigilance. Information Processing. Situational Awareness. Workload Management. Decision Making. Communication. Leadership & Decision Making. Communication. Leadership & Decision Making. Communication. Leadership & Decision Making. Communication.		
12Y2DU Transport in the Context of Sustainability	KZ	2
Definitions of sustainable transport, historical context, development in our country and in the world. Sustainable development and sustainable transport	rt. Demand for tra	nsport. Induction
of transport. Examples of sustainable transport. Biofuels. Electromobility. New trends in transport. Practical examples.	1/7	0
15Y2DN Transportation Psychology in German Speaking Countries Introduction into broader view of traffic problems with regard to the work with texts (Physics for drivers, abusing alcohol during driving, exhaustion, g	KZ	2
in traffic, traffic accident, traffic psychology in the internet etc.)	etting of driving lit	cence, children
18Y2DC Dynamics of Transport Routes and Vehicles	KZ	2
Basic theory and calculations of more mass systems. Analysis of the forces acting between the vehicle and transport route. Creation of dynamic mode	1	
Vibration of systems with a finite number of degrees of freedom. Methods of stiffness constants and pliability constants. Fundamentals of vibration of b	ridges. Criteria for	the admissibility
of oscillation. Experimental methods in dynamics.		
18Y2EM Electron microscopy	KZ	2
Basic principles of electron microscopy, construction, control and maintenance of SEM, sample preparation, signal detection, types of detectors and		
analysis, quantification of results and automation of data processing, energy dispersive X-ray microanalysis and other analytical methods in electron	n microscopy. Eval	uation of data
obtained from ED detector, practical examples of ED microanalysis on samples. 16Y2EE Emissions and Ergonomics of Vehicles	KZ	2
Emissions and ergonomy of vehicles and the influence on man and nature. National and international law related to the hygiene. Noise and vibration	1	
physical values, ways of measuring, prevention, elimination. Exhausts - creation, measurement, reduction, non-regular fuels and drives. Ergonomy - si		
reach. Condition - heating, ventilation, air-conditioning, filtration, tiredom.	3, 3,	, , ,
17Y2FM Financing in Urban Mass Transportation	KZ	2
UMT history and development in Prague and other cities in the world. Building and operation of public tram, bus, and trolleybus networks. Undergro		peration. Other
UMT types. UMT development in small towns. Particularities of investment and operation financing of individual UMT types. Historic and present mo	dels of UMT finan	cing. Transport
inspection and blind passengers. Tourism & DMT. UMT typology & DMT. UMT typology & DMT. UMT typology amp; choice of optimum financing.		
21Y2FM Aviation Company Financial Management	KZ	2
Theories of corporate finance - financial statements, budget, forecast. Financial policy of the company. Financial resources - long-term financial resources above a long-term financial resources - long-term financial resou	ources, depreciation	on, retained
earnings, shares, bonds, loans, leasing, capital. Financial and economic analysis of the company - structure and content. 23Y2FB Physics for Security Branches	KZ	2
23Y2FB Physics for Security Branches Grounds of physics of substances and phenomena at extreme conditions. Grounds of rheology. Physics of Earth's interior. Geophysics. Physics of a	1	
dengineering branches directed to safety.	иноорного. Дрис	addiono in
18Y2FZ Physical foundation of materials' properties	KZ	2
Atomistic models, lattice defects influence on properties of materials, stiffness, plasticity, strength, fracture, fatigue, creep, corrosion, effects of envir	1	ng on materials'
behavior are the main discussed topics.		
15Y2HS Road Transport History	KZ	2
Roads and road traffic in the Ancient Age, corridors of main mediveal pathways. Development of road traffic in the modern period, acceleration of road traffic in the modern period		
1st part of 20th century. Development of road layout, geometric and construction layers. Beginning of modern road civil engineering. Development of	t road travelling in	modern period
	r road travolling in	modern period.
History of road intercections, bridges and traffic control, development of road signs.

Characteristics of the courses of this group of Study Plan: Code=JZ-N-DS 20/21 Name=Jazyk nav.1.-4.sem. (od) 20/21 - program DS Language - French 1 Grammatical Structures and Style. Selection of conversation topics relating to transportation sciences. Developing perceptive and communicative skills, feedback skills, summarising technical text content, structuring presentations and meeting minutes, elementary rhetorics of foreign language and practical application, formal and technical registers and their use, language of management Ζ 15J2I1 Language - Italian 1 Grammatical Structures and Style. Selection of conversation topics relating to transportation sciences. Developing perceptive and communicative skills, feedback skills, summarising technical text content, structuring presentations and meeting minutes, elementary rhetorics of foreign language and practical application, formal and technical registers and their use, language of management. 15J2N1 Language - German 1 7 Grammatical Structures and Style. Selection of conversation topics relating to transportation sciences. Developing perceptive and communicative skills, feedback skills, summarising technical text content, structuring presentations and meeting minutes, elementary rhetorics of foreign language and practical application, formal and technical registers and their use, language of management. Language - Russian 1 15J2R1 Grammatical Structures and Style. Selection of conversation topics relating to transportation sciences. Developing perceptive and communicative skills, feedback skills, summarising technical text content, structuring presentations and meeting minutes, elementary rhetorics of foreign language and practical application, formal and technical registers and their use, language of management 15.1251 Language - Spanish 1 Grammatical Structures and Style. Selection of conversation topics relating to transportation sciences. Developing perceptive and communicative skills, feedback skills, summarising technical text content, structuring presentations and meeting minutes, elementary rhetorics of foreign language and practical application, formal and technical registers and their use, language of management 15.JBF2 Language - French 2 Grammatical Structures and Style. Selection of conversation topics relating to transportation sciences. Developing perceptive and communicative skills, feedback skills, summarising technical text content, structuring presentations and meeting minutes, elementary rhetorics of foreign language and practical application, formal and technical registers and their use, language of management. Language - Italian 2 Grammatical Structures and Style. Selection of conversation topics relating to transportation sciences. Developing perceptive and communicative skills, feedback skills, summarising technical text content, structuring presentations and meeting minutes, elementary rhetorics of foreign language and practical application, formal and technical registers and their use, language of management. 15JBN2 Language - German 2 Grammatical Structures and Style. Selection of conversation topics relating to transportation sciences. Developing perceptive and communicative skills, feedback skills, summarising technical text content, structuring presentations and meeting minutes, elementary rhetorics of foreign language and practical application, formal and technical registers and their use, language of management. 15JBR2 Language - Russian 2 Z Grammatical Structures and Style. Selection of conversation topics relating to transportation sciences. Developing perceptive and communicative skills, feedback skills, summarising technical text content, structuring presentations and meeting minutes, elementary rhetorics of foreign language and practical application, formal and technical registers and their use,

language of management.

15.IBS2 Language - Spanish 2 Grammatical Structures and Style. Selection of conversation topics relating to transportation sciences. Developing perceptive and communicative skills, feedback skills, summarising technical text content, structuring presentations and meeting minutes, elementary rhetorics of foreign language and practical application, formal and technical registers and their use, language of management 15JBF3 Language - French 3 Grammar and stylistics. Selection of conversation and professional topics based on the language level and study focus at the Faculty. Improvement of language structure knowledge and perceptive and communicative skills, vocabulary development. Basic stylistic forms. Presentation of own knowledge in oral and written form. Work with (professional) text and its features. Practice of oral and written presentation. 15JBI3 Language - Italian 3 Grammar and stylistics. Selection of conversation and professional topics based on the language level and study focus at the Faculty. Improvement of language structure knowledge and perceptive and communicative skills, vocabulary development. Basic stylistic forms. Presentation of own knowledge in oral and written form. Work with (professional) text and its features. Practice of oral and written presentation. 15JBN3 Language - German 3 Grammar and stylistics. Selection of conversation and professional topics based on the language level and study focus at the Faculty. Improvement of language structure knowledge and perceptive and communicative skills, vocabulary development. Basic stylistic forms. Presentation of own knowledge in oral and written form. Work with (professional) text and its features. Practice of oral and written presentation. 15JBR3 Language - Russian 3 Ζ 2 Grammar and stylistics. Selection of conversation and professional topics based on the language level and study focus at the Faculty. Improvement of language structure knowledge and perceptive and communicative skills, vocabulary development. Basic stylistic forms. Presentation of own knowledge in oral and written form. Work with (professional) text and its features. Practice of oral and written presentation. 15JBS3 Language - Spanish 3 Grammar and stylistics. Selection of conversation and professional topics based on the language level and study focus at the Faculty. Improvement of language structure knowledge and perceptive and communicative skills, vocabulary development. Basic stylistic forms. Presentation of own knowledge in oral and written form. Work with (professional) text and its features. Practice of oral and written presentation. 15JBF4 Language - French 4 7K Grammar and stylistics. Selection of conversation and professional topics based on the language level and study focus at the Faculty. Improvement of language structure knowledge and perceptive and communicative skills, vocabulary development. Basic stylistic forms. Presentation of own knowledge in oral and written form. Work with (professional) text and its features. Practice of oral and written presentation. 15JBI4 Language - Italian 4 Grammar and stylistics. Selection of conversation and professional topics based on the language level and study focus at the Faculty. Improvement of language structure knowledge and perceptive and communicative skills, vocabulary development. Basic stylistic forms. Presentation of own knowledge in oral and written form. Work with (professional) text and its features. Practice of oral and written presentation. 15JBN4 Language - German 4 Grammar and stylistics. Selection of conversation and professional topics based on the language level and study focus at the Faculty. Improvement of language structure knowledge and perceptive and communicative skills, vocabulary development. Basic stylistic forms. Presentation of own knowledge in oral and written form. Work with (professional) text and its features. Practice of oral and written presentation. Language - Russian 4 15JBR4 Grammar and stylistics. Selection of conversation and professional topics based on the language level and study focus at the Faculty. Improvement of language structure knowledge and perceptive and communicative skills, vocabulary development. Basic stylistic forms. Presentation of own knowledge in oral and written form. Work with (professional) text and its features. Practice of oral and written presentation. 15.JBS4 Language - Spanish 4 7K Grammar and stylistics. Selection of conversation and professional topics based on the language level and study focus at the Faculty. Improvement of language structure knowledge

Grammar and stylistics. Selection of conversation and professional topics based on the language level and study focus at the Faculty. Improvement of language structure knowledge and perceptive and communicative skills, vocabulary development. Basic stylistic forms. Presentation of own knowledge in oral and written form. Work with (professional) text and its features. Practice of oral and written presentation.

List of courses of this pass:

Code	Name of the course	Completion	Credits
11STS	Stochastic Systems	Z,ZK	4
The subject deals	s with the problems of mathematical modelling of dynamical systems, estimation od these models and their utilization for prediction.	The results are illus	strated on
practical tra	insportation tasks. Mathematical theory roots from probability and mathematical statistics and they use the methods of the Bayesian	probabilistic appro	ach.
11XN1	Master Project 1	Z	2
11XN2	Master Project 2	Z	2
11XN3	Master Project 3	Z	1
11XN4	Master Project 4	Z	8
11XNDD	Master Thesis for study programme DS	Z	18
11Y2LG	Logics of Engineer's Judgement	KZ	2
Logical structure of	of engineer's judgement, its propositional and predicative logical base. Solutions of logical tasks through the methods of truthfulness Venn's diagram method. Logical basis for network design for the solution of technical tasks.	and semantic analy	sis charts.
11Y2PM	Programming in MATLAB	KZ	2
To explain the prin	ciple of modelling and simulation, description of Matlab environment and its settings, optimization and program code debugging, da Matlab.	a fitting and design	ning GUI in
12BED	Road Safety Audit	Z,ZK	4
	ations of safety assessments (especially Road Safety Audit, Road Safety Inspection) during the process of preparations, and of the pd d minimize traffic accident risks for all those who take part in road traffic. Application of European Directive 2008/96/EC on road safe		

12DAZP	Transport and Environment	Z,ZK	4
This course aims th	e impact of transport on environment. The accent is put mainly on noise and vibration, emission, barrier effect and energy demands. parcel of this course.	The noise measur	y is part and
12IDOS	Integrated Transport Systems	ZK	3
Reasons for build	ling of integrated transport systems, principle of integration, dividing of integration methods, traffic, infrastructure, technical, organiza tariff, sales systems, information systems, marketing of system, examples of non-integration.	tional methods, into	egration of
12IKD	Rail Transport Infrastructure	Z,ZK	5
	lateral acceleration, parameters eduction for transition curve and cant transition, curves without straight, track spacing change. Track det design, slab track. Tram-train. Interoperability. Noise precautions. Railway line modernization for non-tilting and tilting trains	ailed construction.	1
12MSD	Traffic Models	Z,ZK	4
	Practical creation of traffic models as well as their calibration. Applying new trends in traffic planning with the aim on Smart cities	solutions.	1
12NAPI Design and const	Design and Maintenance of Transportation Structures ruction of cement-concrete pavements and their maintenance. Construction of bridge objects, examples and choice of bridge construant and operation of tunnels.	Z,ZK uction materials. Co	4 onstruction
12TEAP	Theory of Road Traffic Operation	Z,ZK	7
Traffic paramete statistical and mi	Traffic excesses management. Road assessment and maintenance methods. Health risks assessment.	ntical models - mac n and highway mar	
12TKVP	Highway Engineering Materials	Z,ZK	4
The theory of road	d construction - Material Aspects. The course emphasizes the development of road construction from the beginning of the 20th centumaterials, understanding the production and placing of asphalt mixtures.	iry to the present, f	ocusing on
12UMUP	Sustainable Mobility and Land - Use Planning	Z,ZK	5
	objectives and tasks, development over time. Land-use planning tools. SUMP. Territorial and transport planning context. Ways of urb		_
transport. Basic pri	nciples of the transport solution. The impact of transport on the size and shape of the city, on the development of the street and the s for pedestrian and bicycle transport. Suburbanization and transport. City economics.	quare and the road	ds. Solutions
12VRZ	High Speed Rail Transport	KZ	3
High speed railway	(HSR) transport characteristics and position in transportation system. Types / models of HSR systems, preparation of high speed rails. Non-adhesion HSR systems. City and region traffic service by HSR. HSR operating points. HSR worldwide network. HSR routing a of HSR track construction and layout track parameteres.	י way lines building i	
12XN1	Master Project 1	Z	2
12XN2	Master Project 2	Z	2
12XN3	Master Project 3	Z	1
12XN4	Master Project 4	Z	8
12XNDD	Master Thesis for study programme DS	Z	18
12Y2BM	Safety on The Local Roads	KZ	2
Classification of roa	ad accidents rates, social looses. Collision points, diagrams. Tools and methods for safer road transportation. Crossroads from the point right of way. Roundabouts. Pedestrian transport, cyclists. Traffic lights coordination. Transport control and regulation.	of view of safety. P	sychologica
12Y2DU Definitions of susta	Transport in the Context of Sustainability inable transport, historical context, development in our country and in the world. Sustainable development and sustainable transport. If transport, Examples of sustainable transport. Biofuels, Electromobility, New trends in transport. Practical examples.	KZ Demand for transpo	2 ort. Induction
12Y2IS	Urban Networks	KZ	2
	d the position of UN as public and technical infrastructure / utillities, metodology of the UN master planning, of UN design, UN coord operation (basic technical standards of UN, trenchless technologies for UN).	l .	
12Y2KE	Landscape Ecology	KZ	2
	gy. Landscape - definition, types, evolution. Landscape systems. Anthropogenic impacts on landscape. Methods using for evaluating and its potential applications in landscape ecology. Landscape planning.	I	
12Y2KS	Rail Transport in Settlements and Regions	KZ	2
Modernization ar	nd development of railway infrastructure in Czech Republic. Arrangement of railway networks and junctions. Suburban railway service ation of metro systems. Network configuration and operation of tram systems. Special thematic lectures (rail transport in selected course	s. Network configu	l .
12Y2MD	Methods of Traffic Regulation and Prediction	KZ	2
	c prognosis, traffic prognosis for large area (calculation of future traffic volumes, calculation of future traffic volumes between areas (and modal split, traffic distribution to road network). Shock wave in traffic flow. Service levels and their traffic volumes. Acceleration	alogical and synthe	1
12Y2MH	Measurement and Modeling of Traffic Noise	KZ	2
	uction to noise from traffic. Noise from rail transport. Noise from road traffic. Measurement and calculation of noise from rail traffic. Modelling of traffic noise in the CADNA A.	1	I
12Y2MI	Urban Engineering eaching aming on utilities storage in area, coordination engineering activities in area, arrangement of public space, concepement of public space.	KZ	2
12Y2MZ		KZ	2
Line speed increas	Modernization of Railway Lines and Stations ing. AGC and AGTC Agreement. AGC and AGTC railway network. Principles of modernization (conceptual papers, definitions of basic of characteristics on modernized railway lines. Superstructure and substructure on upgraded lines. Designing of railway stations. Bridgand realization of projects. Technical description of the tranzit corridors.	concepts, individua	l principles)
12Y2PV	Public transport priority	KZ	2
•	the backbone of sustainable mobility. Public transport priority (PTP) in strategic documents. PTP in the Czech Republic and abroad. T Relationship between Basics of public transport stops and stations design. PTP measures and evaluation of their operation. Econon PTP. The process of preparing PTP measures.	• •	_
12Y2RD	Realization of Transport Buildings	KZ	2
Transport Buildings	Types. Project Documentation Types. Building Code. Land Permission and Building Permission Process. Building Process. Project Ec	onomics. Project M	anagement
12Y2ZK Principles of traff	Traffic Calming ic calming. Solution of road network organization. Urban road layouts. Psychological and physical obstacles (measures of traffic calming. Solution of road network organization. Urban road layouts. Psychological and physical obstacles (measures of traffic calming. Traffic calming measures in preserved. Pedestrian zones. Psychological and physical obstacles (measures of traffic calming.)	KZ ning) and their com	2 binations.
	Traffic calming measures in crossroads. Pedestrian zones. Residential streets and zones.		

12ZSUZ	Dailyany Stations and Contract	7 71/	
	Railway Stations and Centres senger transport. Platform construction. Access roads to platforms. Modification of railway stations according to the TSI PRM. Station h	Z,ZK eads design Vari	3
	of station heads for current ride. Junction stations. Crossing stations. Passenger stations. Moving stations. Public transport term	inals.	T
14GISS Construction	Geographical Information Systems on of saving format of space-oriented information land-survey and cartography minimum basic tasks of spatial operations principles of	KZ territorial identific	2 ation
14XN1	Master Project 1	Z	2
14XN2	Master Project 2	<u></u>	2
